Dear Andrew,

Thank you for the attached information. I have forwarded the "Direction" issued under the NWNSRTA to the licensing department for posting to the public registry to the appropriate municipal water Licence. Enforcement directions or inspection reports and inspection documents (especially those issued under the NWNSRTA) are generally made public on the principle that the public has the right to be informed and made aware of the status of a licensee with regards to compliance to a water Licence and measures needed to achieve compliance (if applicable). The NWB intends to post the attached information by the end of the week. Should you wish to discuss this further please do not hesitate to contact me.

Regards,

Dionne
