Re: Hamlet of Hall Beach: 3BM-HAL 1520: Amendment application

Dear Ms. Beaulieu,

We recently received a new Water Licence for the Hamlet of Hall Beach which will be expired on April 29, 2020. This licence covers Community water supply system, Wastewater treatment by lagoon and Waste management sites. We are planning to optimize the Wastewater treatment process by expanding the sewage lagoon cell-1 and making it impervious using liner. Design Brief is complete and construction drawings are ready for tendering. We are now submitting amendment application with the following supporting documents.

1. Amendment Application signed by the Senior Administrative Officer (SAO) of the Hamlet of Hall Beach
2. Authorization letter by SAO
3. A $30.00 Cheque payable to “Receiver General for Canada”.
4. Technical Summary in English and Inuktitut
5. Design Brief
6. Geotechnical Report
7. Construction Drawings
8. Construction Schedule
9. Construction Specifications
10. Annual Report 2014

We are expecting to tender this project at the end of May, 2015.

Please contact me if you have any issue or concern with this Amendment application. I will also appreciate if you keep me in the loop for this water licence approval process.

Thanking You.
