Subject: RE: BN Hall Beach Sewage Lagoon cell #1-Leaking: Update
Date: Monday, July 08, 2013 10:22:08 AM

Bill,

Please accept my apologies for not following up earlier but I have been on the road and prior to that was away on Holidays. As you are aware, pursuant to the water License for Hall Beach;

PART D: CONDITIONS APPLYING TO WASTE DISPOSAL

5. The Sewage Disposal Facility shall be maintained and operated in such a manner as to prevent structural failure.

Given the above and the failure of the cell wall and release of the lagoon's contents, I am following to see what has been done to date, what the plans are for restoration for the coming summer and how the Municipality and CG&S are going to prevent this from recurring next year.

I am on the road starting again today so the best means to track me down will be via e-mail. If your office could get back to me within the next two weeks that would be great. Note that on July 26th as I will be in Hall Beach then on other business and will make a point of going out to the lagoon to inspect the sink holes and damage.

Many thanks

Andrew Keim

Just an update,

Spill has been posted to Spill Net, AANDC has been notified and are determining a course of action in regards to the decant. Eric, Manager of Field Operations will make the call when he gets in from Rankin. He will inform the Mayor, and Bhabesh of his decision.

Bill

Update:
Hamlet confirmed that they sent the letter to Andrew (AANDC) and Spill report to Spill Hot line.

Thanks.

Bhabesh
