Subject: Renewal of Water License NWB3REP0409 - Type "B" Repulse Bay

Hi Brian,

I was assigned to look into the email you send us on December 6, 2012 and right now we have touched base with the Nunavut Water Board (NIRB) to determine what information is within the licence and at this time they have indicated to us that they do not have a complete application.

Until the application is complete and the NWB refers the file to the Nunavut Impact Review Board (NIRB) we are unable to make any recommendations at this time.

If you have any questions on what I have written here please feel free to contact me and I am happy to discuss things with you further.

Kelli
