Subject:	FW: Notice of Eureka Waste Water Lagoon Decanting 2012
Date:	Friday, June 22, 2012 8:50:42 AM

Good morning Andrew,

As per Part D section 12 of the NWB Licence No 3BC-EUR1116, we would like to provide you with advanced notice that we will be sampling and decanting the Eureka sewage lagoon in the early morning hours of July 4th 2012 until July 5th in an effort to have the samples sent out to the laboratory on an empty produce return charter flight on the morning of July 5th.

Please contact me if you require further information.

Regards

Subject: Notice of Eureka Waste Water Lagoon Decanting

Carl,

As per Part D section 8 of the NWB Licence No 3BC-EUR1116, you need to give the NWB 10 days advance notice that we will be decanting our sewage lagoon.

It takes about 48 hours to empty the lagoon and I will be taking samples at 1/3 empty & 2/3 empty... so after 16 hours and 32 hours.

Due to the scheduling of our produce flight this year, we will start pumping out the lagoon at midnight July 3rd.

The first set of samples will be taken at 4 p.m. July 4th and the second set of samples will be taken at 8 a.m. July 5th.

After the second set of samples are taken, the samples have to make it to the lab within 8 hours so the first set of samples can get to the lab in Yellowknife within 24 hrs.

Please advise the appropriate parties of our schedule.

Thanks,

Al
