Hello Barb,

Sorry for not responding to your email sooner.

In response to your query, Part D, Item 4 of the Licence terms and conditions does not allow for open-burning of untreated wood. Instead, the condition allows for the disposal of all acceptable food waste, paper waste, and untreated wood waste in an incinerator.

If open-burning is the best of all possible options considered, you can submit to the Board for consideration a request to carry out that activity, along with appropriate rationale and details including the amount of material/wood involved, when the activity is to be carried out, etc. The Board typically approve such requests on a distinct and case-by-case a basis. Please note that each time the requirement for open-burning is being contemplated, a separate request will have to be filed with the Board for consideration.

Should you have other questions, please do contact me at your earliest convenience.

Regards,
Sean

Subject: 3BC-BAF0919, question on untreated wood

Hi Sean,

We have a bunch of old wood crates at BAF-3. Does the water license 3BC-BAF0919 allow us to burn the wood if it is untreated? This would be an open burn, not in an incinerator.

Thanks,
Barb
