Good morning Richard, an email is sufficient for authorization as we can save it to our central files. We will do our utmost to get the file out for the 30 day review before our office closes for the Christmas break.
Regards,

From: Richard Cook [mailto:rcook@knightpiesold.com]

Hi Phyllis,

Thanks for your note. Stephen can respond on the administrative item below. Is an email sufficient, or do you need a letter to put to the file?

Also, do you expect the completeness review can occur in the next few days, i.e., before Christmas? We are keen to see the review completed as soon as possible as QEC needs to start tendering portions of the program by the end of January to be able to carry out the program in April.

Also, for clarification, is the 30-day review one completed by the water board, and not a screening by NIRB?

Thanks,
Richard

The Nunavut Water Board acknowledges receipt on November 6, 2012 of the above application for a new water licence for the Iqaluit Hydro-Electric Project. Currently the file is undergoing a preliminary technical review for completeness. Once determined to be complete the file will be distributed for a 30 day review.

Please note that the following is required administratively:

1. Authorization letter for Knight Piesold to act on behalf of Qulliq Energy Corp on the file.

We have received payment of $60.00 for the admin and water use fees. Please note that $30.00 will be considered a deposit on the full water use fees. Attachment explains the requirement of full water use fees which are required prior to issuing the licence.

Regards,

Phyllis Beaulieu
