Subject: Licence NWB1NAN0208 –Technical Meeting

Dear parties:

In its February 18, 2003 letter on the abovementioned subject, the Nunavut Water Board (“NWB”) proposed to hold technical sessions to facilitate the review and approval of technical submissions required under licence NWB1NAN0208.

Following consultation with interested parties and after having received responses from Breakwater Resources (“BWR”), the Department of Indian and Northern Affairs Canada, Nunavut Tunngavik Inc., and the Government of Nunavut, the NWB has decided to hold the technical meeting as follows:

DATE: Saturday March 29, 2003

TIME: 8:30 AM

LOCATION: Iqaluit (exact location to be determined)

The following documents will be discussed at the technical meeting:

- (1) the Phase II Environmental Site Assessment (“ESA II”) required pursuant to Part G, Item 13 of the Licence;
- (2) the Human Health and Ecological Risk Assessment (“HHERA”) required pursuant to Part G, Item 14 of the Licence; and
- (3) the revised Emergency Response Plan (“ERP”) required pursuant to Part E, Item 1 of the Licence submitted by BWR on February 28, 2003, submitted by BWR on February 28, 2003. The NWB proposes to review and approve this document in conjunction with that of the HHERA and ESA II.

All reports are available upon request or can be downloaded from the NWB ftp site (<ftp://nwb.yk.com>, in directory “Current Hearings/NWB1NAN0208”).

Again, the NWB will review and approve these submissions by way of a written hearing, and accordingly, the deadline to receive comments on these three submissions is April 26, 2003 5:00 (MST).

Any queries in this matter may be submitted to the undersigned at the following email address: nunavutwaterboard@nt.sympatico.ca.

Yours truly,

Patrick Duxbury, M.Sc.
Mine Reclamation Coordinator
Nunavut Water Board
