**Subject:** NW1NAN B(6) - Response to Annual Report

Good morning gentlemen,

I am just in the process of wrapping up some paper work regarding some open files of mine; including the 2003 Annual Report for Nanisivik Mine. A letter was sent to Bob on July 22, 2004 regarding some outstanding issues, mainly about the large volume of water consumption reported. After to speaking to Bob in late August, I now understand the reason for the reading being so high. However just to close this file I need a written response to the July 22, 2004 letter. Has it yet been sent out? If not, then this is just a friendly reminder for you to get something back to the NWB, at your convenience.

Regards,

Patrick Duxbury, M.Sc.  
Mine Reclamation Coordinator  
Nunavut Water Board  
Cambridge Bay, NU
