---

Hi Bob,

Thanks for sending me this response. In conjunction with INAC's July 14, 2008 site inspection findings and documentation submitted to the Nunavut Water Board, it will be used to make a revised license security estimate. This estimate will be provided to the Board by December 10, 2008.

Take care,  
David

Hi David:

Again, apologies for the delay. If you have any questions regarding this please give me a call.

Cheers,  
Bob.

Hi Bob,

Thanks for getting back to me on this. I look forward to reading the upcoming project reclamation summary document and responses to the questions that have been brought to your attention.

Take care,  
David

Hi David:

I have to apologize for the delay in getting this to you. We have been occupied with demobilizing all the equipment from the site and battening down the hatches. I have charged our consultants with incorporating the answers to your questions into a larger summary document but this is proving slower than I had hoped. That said, I will commit to getting you a response to the specific questions/comments in the inspection report by Tuesday next week. (Promise).

Thanks for your patience.  
Bob.

Subject: Reclamation of the Nanisivik Project

Hi Bob,

I am curious about whether you can provide a response to the comments / questions regarding the Nanisivik Project's reclamation status that were identified in my August 1, 2008 letter (see attached). This information would benefit Indian and Northern Affairs Canada's review of the project closure activities and the water license security requirements.

Feel free to contact me to further discuss this request.

Take care,  
David
