Subject: Licence NWB1NAN0208: Submission of requests for clarification concerning CanZinco Limited's Phase II Environmental Site Assessment, Human and Ecological Risk Assessment and Emergency Response Plan

Dear Mr. Carreau,

At the March 29th, 2003 Technical Meeting in Iqaluit a decision was made to allow interested parties to request clarification of issues contained in CanZinco Limited's ("CanZinco") above-cited submissions. By the 5:00 pm (MST) April 25th, 2003 deadline the Nunavut Water Board ("NWB") had received submissions from the following parties;

Nunavut Tunngavik Incorporated;
Government of Nunavut;
Department of Indian Affairs and Northern Development; and
Environment Canada

These submissions have been forward to you, as well as to the Nanisivik Distribution List, by way of this email. Requests for clarification from the Acres International/Dillon Consulting peer review of CanZinco's reports, conducted on behalf of the NWB, were sent to the Nanisivik Distribution List on March 28th, 2003, and should be considered in CanZinco's response. In addition to these submissions, a summary of the April 17th, 2003 public meeting in Arctic Bay, which presented information on CanZinco's reports, is forthcoming very shortly. Any questions or concerns raised at that meeting that were not fully addressed at the meeting will be listed for CanZinco's response.

CanZinco is reminded that the deadline to file responses to these submissions with the NWB is 5:00 pm (MST) May 19th, 2003. As some concerns have arisen from government regulators concerning the content of CanZinco's reports, the NWB may provide additional procedural direction once CanZinco has filed its response.

Any questions regarding these matters may be addressed to Philippe di Pizzo, NWB Executive Director, or to me.

Yours truly,

Patrick Duxbury
