Mr. Patrick Duxbury
Mine Reclamation Coordinator
Nunavut Water Board
Arctic Bay, NU X0A 0X0

Dear Mr. Duxbury:

Re: License NWB1NAN0208 – Possible Technical Session

We are in receipt of your letter dated February 18, 2003 regarding the possibility of holding a technical session in Iqaluit on March 28, 2003. We understand the purpose of the session would be to discuss reports recently submitted by CanZinco Ltd. to the Nunavut Water Board. The specified reports were submitted on January 30, 2003 and entitled:

- (1) 2002 Phase II Environmental Site Assessment, Nanisivik Mine, Nunavut (Gartner Lee Limited); and
- (2) Nanisivik Mine, Human Health and Ecological Risk Assessment (Jacques Whitford Environment Limited).

We would be pleased to meet with the Board and any other interested parties to review these documents at the proposed time and location. We would ask however, that you provide us with confirmation of the date by March 4, 2003 so that we may in turn commit and proceed with the necessary advanced scheduling and travel arrangements for our consultants and ourselves. We trust that you understand the importance of this.

We would also like to say that we find the idea of holding the session to coincide with the 7th *International Mining Symposium on Mining in the Arctic* is an excellent one and will provide an added benefit to those of us who are travelling to the area. We would expect that the organizing committee of the ISMA would agree on this point.

Should you wish to discuss any of this further, please feel free to contact me at (506) 546-1999 (extension 2263).

Yours sincerely,

Breakwater Resources Ltd.

Robert Carreau
Manager, Environmental Affairs

c.c. Mr. B. Heath, Vice-President, CanZinco Ltd.
Mr. S. Keenan, Environmental Superintendent, Nanisivik Mine
