Mr. Patrick Duxbury, Mine Reclamation Coordinator Nunavut Water Board P.O. Box 119 Gjoa Haven, NU X0B 1J0

BY FAX 1 867 360 6369

Dear Mr. Duxbury:

Re: Licence NWB1NAN0208

Breakwater Resources Ltd. – Proposed Technical Review Meeting

Thank you for your email of February 18th, 2003.

This response is provided to advise you that the Government of Nunavut supports your proposal to hold a Technical Review in Igaluit, March 28th, 2003.

We have a number of technical questions emerging about the Human Health and Environmental Risk Assessment, and the Phase 2 Environmental Site Assessment Reports recently filed under License NWB1NAN0208, and would value the opportunity of this proposed Technical Review meeting to clarify these details. We believe the effort involved will be well rewarded, in terms of the quality, focus, and thoroughness of regulator's input to NWB and the public regarding the issues dealt with in these reports.

Sincerely,

Susan Hardy Legal Counsel
