**Attention: Peter Blackall, Regional Director of Environmental Protection**

Dear Sir;

**Re: Polaris Mine – 2004 2<sup>nd</sup> Quarter Metal Mining Effluent Regulations Report**

Despite having a designated discharge location for effluent identified under Section 9 of the MMER, there was no discharge from the Garrow Lake Tailings Impoundment Area during the period April 1, 2004 to June 30, 2004. While there is no data to report, I have completed the monitoring report as required by the regulations and have attached it to this letter.

If you have any questions regarding the quarterly report or aspects of the application of the MMER to the Polaris Mine, please feel free to contact me at any time.

Yours truly,

Bruce Donald
