Good afternoon;

We've received the July 24, 2009 final version of Polaris Inspection Report does have permission from INAC and or BGC to distribute this for information and upload to our ftp site? Page 9 of the report reads:

“As a mutual protection to our client, the public, and ourselves, all documents and drawings are submitted for the confidential information of our client for a specific project. Authorization for any use and/or publication of this document or any data, statements, conclusions or abstracts from or regarding our documents and drawings, through any form of print or electronic media, including without limitation, posting or reproduction of same on any website, is reserved pending BGC's written approval. If this document is issued in an electronic format, an original paper copy is on file at BGC and that copy is the primary reference with precedence over any electronic copy of the document, or any extracts from our documents published by others.”

I look forward to your response.

Regards,
