Hi

Attached is the response from TC with respect to comments you submitted regarding TC meltwater disposal proposal. Please clarify the response with your initial concerns and provide final comments ASAP. Given the time sensitive nature of the proposal the Board would like to finalize the recommendations to TC no later than Wednesday June 4, 12:00 pm (MT). The Board is holding a conference call on Thursday to finalize the issue.

While I realize this does not allow very much time for your response I hope that you can work within this timeframe. Please contact me if you require clarification or assistance in any way.

Regards,
Dionne Filiatrault, P. Eng.,
