Re: Dumps for Caribou Harvest

Dear: Leonard Netser

This letter is a response to your letter dated Dec 19, 2006 and received on Dec 20, 2006.

The Hamlet of Coral Harbour charges tipping fees for the use of there dumps. The current fee is \$50 per load for garbage as per Bylaw 187. I have attached an application form for your convenience, which should be filled out along with your payment prior to use.

In regards to the use of the second dump near the airport for the Caribou Harvest it is also subject to the above fee, but in accordance with health concerns all animal carcasses, hides and material must be buried immediately. The contractor is responsible to excavate and bury all animals' waste. The contractor is responsible for all costs associated to this including equipment rental fees and tipping fees. A tipping permit is required for this and as all tipping fees should be paid up front or arrangements made to pay for this.

In regards to sewage waste, all sewage from the hunt must be must be deposited in the sewage treatment area for environmental reasons and there are no exceptions.

Therefore if all conditions are met above I see no reason why your organization can not use the dump.

If you have any questions please contact me at the above numbers.

Regards

Ronald Ladd
