Cheers Cory – we are waiting on additional information from the proponent. The additional info will determine whether the application will be screened by NIRB or not. I have spoke with NIRB and i will follow up with them again today to see where we/they are at. I can't guarantee it will be with you by next Tuesday but we will try our best. Cheers, Christopher

I know you're still looking at this file (NWB File No. 1BH-PSC), but as my last day with the NWB is next Wednesday, I was hoping to wrap-up my outstanding files.

Any chance you could provide a conformity determination on this file by Tuesday, April 29th? Any assistance you can provide on this matter is much appreciated.

Subject: Re: Request for Conformity Determination for Type B Water Licence Application (NWB File No. 1BH-PSC)

When time permits, can you provide me with an update regarding your conformity determination for the previously mentioned application (NWB File No. 1BH-PSC)?

 Merci de penser à l'environnement avant d'imprimer ce courriel / Thank you for thinking of the environment before printing this email

Subject: Request for Conformity Determination for Type B Water Licence Application (NWB File No. 1BH-PSC)

Hello Christopher,

Could someone in your group provide a conformity determination for the attached 'Type B' water licence application? Could you also confirm which address at NPC is the most appropriate to send these types of conformity requests (i.e. those that haven't reached the NPC by other means, such as via the NIRB, public review requests, etc.)?

This Type B application proposes to use 1,900 cubic meters of water for the purposes of hydrostatic testing of a new fuel tank as part of the petroleum systems upgrade being done at the Coral Harbour tank farm. The project is located adjacent to the community of Coral Harbour. All materials provided with this application are available here (user: 'public', password: 'registry'): <ftp://nunavutwaterboard.org/1%20PRUC/1%20INDUSTRIAL/1B/1BH%20-%20Hydrostatic%20Testing/1BH-PSC----/1%20APPLICATION/2014%20New/>.

Thank-you, please feel free to contact me directly should you have any questions or concerns regarding this request or application at cory.zyla@nwb-oen.ca or (867)-360-6338 (x36).

Regards,
