Hi Megan,

More correspondence below.

I will be passing my draft of the Board Memo and Licence to a senior tech for review and subsequently sending it over to Licensing for Board Approval.

Thanks!

Cory Zyla- d◊n ↗Δc

Subject: Re: FW: The lake

Hi Marc,

Thank-you for your efforts on pulling this information together. Yes, we will proceed with your application given that we now have a confirmed surface area and there is no record of this particular lake's depth. Based on this provided information, the lake is sufficiently large enough to mitigate the impacts of your project (i.e. we will be assuming that the depth of this lake is shallow, but even so, given its area, the impacts should be negligible).

I will contact you again should there be a need for any further information, otherwise you can assume at this point that we will be providing your application to the Board for review, approval, and subsequent issuance of the licence.

Regards,

Cory Zyla- d4n 7Δc

Hi Marc,

Unfortunately CGS does not have information regarding the depth of the lake. According to the base map that we have available, the area of the lake is 75,452 m². The base map is compiled using satellite imagery from a few years ago and so it may not reflect the current levels of the lake.

It's possible that the Nunavut Water Board may have information regarding the depth of the lake in question.

Hi Marc,

I'm sorry I do not know the average depth of the lake. You can ask Jakub, hes the community planner for the Kivalliq with CGS, I'll cc him.

Thanks,

Hi Bridget,

Thank you for the map.

Would you know the average depth of the lake?

Subject: The lake

Hi,

The purple with the 14 is the gas station and the lake is right across from it.
