**Re: Water Licence required for water use and waste disposal at the BBS
Asphalt Plant in Iqaluit, Nunavut.**

Dear Mr. Grove;

Under the Nunavut Waters and Nunavut Surface Rights Tribunal Act (NWNSRTA 2002) a Water Licence is required for water use and waste disposal in Nunavut. In the course of asphalt making at the Baffin Building Systems Asphalt Plant, water is drawn from an area across the road from the asphalt plant. A sump adjacent to the plant is a disposal site for waste created in the asphalt making process. These activities require a licence under the NWNSRTA. Please submit a water licence application to the NWB as soon as possible. A blank application and an application guide are attached to this document. Further information can also be obtained from Jim Wall with the NWB at 867 983-2214 or from the NWB website at <http://nwb.nunavut.ca/>

If you have any questions or concerns, please contact me.

Sincerely,

Scott Stewart
