Land use information

- The applicant(s) shall attach an application package to this application form. The application package shall include the following information:
 - Location and description of the operation:**
 - This includes a sketch of the proposed area of operation. The sketch shall include dimensions of the parcel of land, total area, an image depicting the area relative to the closest community, and GPS coordinates;
 - Time schedule of the operation;
 - Full name and mailing address of the company or individual responsible for the operation;
 - Number of employees that will work on-site;
 - List all contractors and sub-contractors associated with the operation;
 - List of chemicals and combination of chemicals that may be used during the operation.
 - Equipment that will be used:**
 - Type, size, and purpose of the equipment.
 - Fuel usage and storage:**
 - Type, volume and method of storage containment; and
 - Method of emptying and filling containers.
 - Method of waste disposal:**
 - Arrangements made for the disposal of garbage, hazardous material, sanitary waste and debris.
 - Any other relevant information the applicant(s) wish to include in the application package.**
- Depending on the complexity of the project, the Department of Community and Government Services may request additional information to be included into the application package.
- The local Municipal Land Administration By-law shall determine the permit fee and rental.
