Good afternoon Mr Hunter,

I have tried a few times to reach you. I would like to discuss the water application PPD has submitted. I am hoping you can put it on hold until we can get the proper information and documentation gathered. From my understanding there are a few things missing.

As you will notice I have copied Jim Wilson from Nunatta Environmental Services. He will be taking over the application process for PPD.

I have received a call from Mr. Adrew Kiem regarding a call or email he had received regarding not having any comments for the application. I did mention to him I was not aware of any timeline.

I can be reached on my cell number, 867-645-7684, and I will try again to reach you.

Best regards,

Bernard
