Good afternoon Bernard,

I have attached ECCC's comments in regards to 1BR-BAK---- Updated Land Farm Plan, for your information. I would like to acknowledge your request to put the application on hold pending retrieval of information and documents, also note that Jim Wilson from Nunatta Environmental Services has been copied and understand he will be taking over the application process for PPD. I would also like to note that the Nunavut Water Board would require a letter of Authorization from the GN contracting out the application process to Jim Wilson from Nunatta Environmental Services for future records.

Copies of all documents received in support of this submission can be accessed through the NWB's Public Registry and FTP site using the following Link:

<ftp://ftp.nwb-oen.ca/registry/1 INDUSTRIAL/1B/1BR - Remediation/1BR-BAK---- Baker Lake Landfarm/2 ADMIN/3 SUBMISSIONS>

The Nunavut Water board is aware that a number of web browsers are no longer supporting File Transfer Protocol (ftp). If you are having difficulty accessing our FTP site you may need to download an FTP application. We have been recommending the FileZilla Client below to access the files, which is a free and open source application. A link can be found below:

<https://filezilla-project.org/>

If you have any questions or concerns please let me know.

Regards,

Robert Hunter  
Licence Administrator
