Notes:

¹ The Act establishes Schedule 1, as the official list of wildlife species at risk. Schedule 1 classifies those species as being extirpated, endangered, threatened, or a special concern. Once listed, the measures to protect and recover a listed wildlife species are implemented. Species that were designated at risk by COSEWIC prior to October 1999, must be reassessed using revised criteria before they can be considered for addition to Schedule 1 of SARA. These species are listed on Schedules 2 and 3, or are not listed on any schedule, and are not yet officially protected under SARA.
