**Subject: Submission of 2009 Annual Report for PIN-4, Byron Bay – DEW Line Site
under Part B, Item 1, Licence No. 1BR-BYR0712**

Dear Ms. Schulz:

The Nunavut Water Board (“NWB”) received the 2009 Annual Report, Updated Site Figures, and Site Photos for the above-mentioned project on April 13, 2010. The report and supporting documents were distributed to interested parties and persons for information purposes on April 26, 2010. No comments have been received to date.

A review of the report and supporting information has determined that the documents are consistent with the reporting requirements under Part B, Item 2 in the Licence. The review also noted all relevant work carried out in 2009 on the Non-Hazardous Waste Landfill, Tier II soil Disposal Facility, Landfarm, Existing Landfill, Buried Debris Remediation Area, Communication Infrastructure, Contaminated Soil, etc. Analytical results were not submitted with the report because no sampling was carried out under the monitoring program in 2009.

Should you have any questions, please do contact the undersigned at (867) 360-6338 ex 25, at your earliest convenience.

Yours truly,

Original signed by:
