Re : **Letter of Authorization**

Mr. Liu,

This letter is in response to your email sent 18Jan07 requesting official authorization for UMA Engineering to administer permits for the Department of National Defence's DEW Line Cleanup project.

UMA Engineering is hereby authorized to continue to administer and manage (as they have been for several years) the permitting requirements for all applicable stakeholders unless stated otherwise by the Department or one of its representatives from Defence Construction Canada.

Please note that a representative from Defence Construction Canada will continue to be the permittee for the project.

Regards,

Philip I. Warren, P.Eng, PMP  
Deputy Project Director  
UXO and Legacy Sites Program  
Defence Construction Canada
