Good morning Richard,

Thank you for forwarding me CIRNA's comments on the 1BR-CAM0520 renewal application.

The monitoring event at CAM-M in 2019 was a supplemental monitoring event, which was added to the regular monitoring program to address a few specific geotechnical items of interest. There was no requirement to undertake soil or groundwater sampling in 2019. The next full monitoring event at CAM-M is scheduled for 2025, and it will include the full soil and groundwater sampling program.

Regards,

Alison
