Subject: 1BR-CAP0914 PIN-2 Contaminated Water Source
Date: Monday, July 26, 2010 9:17:15 AM

Information received in our office indicates that the water source, identified as Harding River, in the above water licence is currently unfit for human consumption. In order to change the water source it is necessary for DCC to provide us with the water licence application and cover letter of explanation on this issue. The NWB will consider this an emergency situation under section 55(4) of the Waters Act and will distribute for a period of 10 days as opposed to the normal 30 days. Please provide, as soon as possible, the necessary paperwork to initiate.

Regards,

Phyllis Beaulieu
Manager of Licensing
