Hi Megan,

For your information: to process this amendment application we did require outstanding information that was requested under original licence and wasn't submitted. Some info was submitted since, however, we are still waiting for the QA/QC Plan with an acceptance letter from an accredited laboratory. This was required to be submitted within 6 months of licence issuance.

Also, a Construction summary report with as-built stamped drawings etc would be included as well if possible at this stage as you mentioned that construction works were completed.
