RE: Water License application for the PIN-B (Clifton Point) Remediation Project

Dear Mr. Beaulieu,

The Department of Indian and Northern Affairs Canada (DIAND) is submitting applications for the remediation of the former PIN-B (Clifton Point) Intermediate DEW Line Site. Please find enclosed the Water Licence Application (Appendix 1), Exploratory/Remote Camp Supplementary Questionnaire (Appendix 2) and supporting documents.

PIN-B (Clifton Point) is located 200 km northwest of Kugluktuk. Due to the fact that the regional Land Use Plan has not been developed, a Nunavut Planning Commission conformity check will not be required. In addition to applying for a Water License, DIAND is also concurrently applying for a Land Use Permit. All recommendations, as presented in the Remedial Action Plan completed by UMA Engineering, have been accepted and will be implemented.

The PIN-B (Clifton Point) Remediation Project application package includes:
Appendix 1 – NWB Water Licence Application
Appendix 2 – NWB Exploration/Remote Camp Supplementary Questionnaire
Appendix A – Executive Summary (English and Inuinnaqtun)
Appendix B – UMA Remedial Action Plan
Appendix C – PIN-B Site Maps
Appendix D – AMEC Environmental Screening
Appendix E – PIN-B Project Schedule
Appendix F – Supplemental Information

If you have any questions, comments or need more information, please do not hesitate to contact the Project Manager, Lou Spagnuolo, at spagnuolol@inac.gc.ca or (819) 994-7469.

Sincerely,

Natalie Plato
Director, Contaminated Sites
