RE: NWB Technical Review of 2019 Annual Report for the Cambridge Bay Soil and Water Treatment Facility Project; Water Licence No: 1BR-CST1723

Dear Mr. LeGoffe and Mr. Omilgoitok:

The Nunavut Water Board (NWB or Board) has completed its technical review of the 2019 Annual Report (Report) provided to the Board on March 30, 2020. Following receipt, the Report was made available to the Kitikmeot distribution list for information. No comments have been received to date.

The technical review of the Report determined that the information provided generally addresses the requirements of the Water Licence. The Board appreciates submission of such detailed report.

The NWB notes that the Report indicates that the *Water Monitoring Plan will be revised once the groundwater monitoring wells have been sampled for the first time in 2020*. The Board strongly recommends that the Licensee consult the comments submitted by the ECCC¹ and CIRNA² and address these recommendations within the next version of the Water Monitoring Plan. This information is attached to this letter for your consideration.
