

Hi Rita,

Environment Canada had some concerns and requested additional information, this was passed on to the proponent with no response to date. I will send another letter requesting the information.

Thanks
Gladys

Hi Gladys,

Back from a very short holiday. Just wondering what the status is of this screening. Last thing we have on file is a copy of a letter dated May 2, 2003 indicating that screening report by June 4, 2003. Your file number is 03AN067.
