Re: Assignment of Licence NWB1CUL0207

In response to your public notice of assignment, the Department of Indian and Northern Affairs does not have any objection to the re-assignment of the licence contingent on the following:

- the new licensee will assume all responsibilities and liabilities associated with the site. These include, but not restricted to, continuing long term monitoring of water quality, abandonment and restoration commitments, emergency response, and general maintenance.
- will be responsible for ensuring all terms and conditions of the existing water licence will be observed to the fullest extent including reporting requirements as stipulated in the licence.
- Of note, we will require the immediate action by the new licensee to transfer the existing security, on file with the Nunavut Regional Office (INAC), under their name.

If there are any questions please contact me at (867) 975-4550 or sherlocke@inac.gc.ca.

Best regards,

Elizabeth Sherlock
