Ida, this info should be saved under submission as well, if it wasn't at that time.

Dear Sir or Madam,

Further to our earlier discussions and correspondence, Barrick agreed to (i) conduct a Dam Safety Review in 2015 for Tailings Dam #1 in accordance with CDA Dam Safety Guidelines, and (ii) share the review with AANDC and NWB and discuss the implementation of the recommendations therein. I wanted to advise you that several months ago we retained the services of Thurber Engineering to perform the DSR. Thurber visited the site in August 2015 and prepared an initial draft DSR. We expect to have Thurber's final DSR within a few months and will pass it along to you once we have it. I would be happy to discuss this matter further with you at your convenience.

Kind regards,

Dan
