Re: NWB5DYE0409 - 2004 Annual Report

On behalf of Indian and Northern Affairs Canada (INAC), I would like to thank the Nunavut Water Board (NWB) for the opportunity to provide comments on the 2004 Annual Report for the DYE-M DEW line clean-up. The report presented was prepared by UMA Engineering, as per the requirements of Part B.1 of water licence NWB5DYE0409 (the Current Licence), on behalf of Defence Construction Canada and the Department of National Defence (the Licensees)

A review of the 2004 report was conducted by Water Resources. As the camp was operational for just one month, little work was completed. The annual report submitted was assessed to be complete in meeting the requirements of Part B.1 of the Current Licence.

If you have questions or concerns, please do not hesitate to contact the undersigned.

Best regards,
