---

Good morning Eva – I'll make a note for our file to wait on the updated plan until the contract has been awarded.

Regards,

---

Hello Phyllis,

Douglas Craig forwarded this request on to me. The Cape Dyer site had a bit of 'turnover' the last year. The contractor who was on-site for the clean-up left at the end of the 2009 season, and did not return to finish the job in 2010. During 2010, care and maintenance work was carried out by the Canadian military and also a company called Sila Remediation Inc. A contract for the remaining work, to be completed by 2012, is being tendered this winter and the site will have a new contractor. As such, we will have an updated Spill Contingency Plan once the new contract has been awarded. Let me know if you would like an 'interim' plan for the file, or if we should wait until the contract has been awarded and we can submit the Contractors' spill contingency plan, which would be the most up-to-date with contacts, responsibilities, etc.

Regards,  
Eva
