Thank-you for the submission of the Quality Assurance and Quality Control Plan for the Landfill Monitoring program at the DYE-M (CAPE DYER), prepared by Environmental Sciences Group for Defence Construction Canada and UMA Engineering Ltd.

Upon review, it has been found that the plan is complete. Approval of the plans is hereby granted.

Please note that the status of accreditation may have changed for the laboratories. Scopes can be found on either the Standards Council of Canada website (www.scc.ca) or the Canadian Association for Laboratory Accreditation (CALA) (www.cala.ca) and should be periodically reviewed to ensure laboratories used remain accredited in the specific analysis required.

Should you require further information, please do not hesitate to contact me at (867) 669-2781.

Sincerely,

Angelique Ruzindana, M.Sc.
