Hi Phyllis,

As this file is a Type B Water License Application, the NIRB is not required to screen the application. This application is exempt from our screening process and therefore any authorizations from your office for this project proposal can be issued to the Proponent.

If you have any questions or require further clarification, please do not hesitate to contact our office.

Regards,

Tannis

Subject: 3BC-EDI---- PIN-DA file

As with the previous message regarding 3BC-CRO---- the above mentioned file will require a NIRB determination as well. This is considered an industrial activity. If NIRB are exempting this file we require a submission in writing to that effect. NPC conformity is not required as the location is outside the boundaries of an approved land use plan.

Regards,

Phyllis Beaulieu
