NWB Annual Report Year being reported: 2017

License No: 1BR-EKA1734 Issued Date: September 22, 2017 Expiry Date: September 21, 2034

Project Name: FOX-C Ekalugad Fjord Long Term Monitoring

Licensee: Indigenous and Northern Affairs Canada (INAC)

Contaminated Sites

Mailing Address: PO Box 2200

Iqaluit NU X0A 0H0

Name of Company filing Annual Report (if different from Name of Licensee please clarify relationship between the two entities, if applicable):

N/A

General Background Information on the Project (*optional):

The FOX-C Intermediate Distant Early Warning (DEW) Line Site was constructed in 1957 and subsequently abandoned in 1963. It is located on the Northeast coast of Baffin Island on the south shore of Ekalugad Fjord and is approximately 240 km from Qikiqtarjuaq and 260 km from Clyde River. Remediation at the FOX-C site was completed between 2006-2008 and involved the construction of a non-hazardous waste landfill (NHWL), the only structure remaining onsite.

As per departmental commitments to monitor the NHWL post-closure, a long term monitoring (LTM) program was initiated at FOX-C in 2009 and includes visual inspection, groundwater sampling, soil sampling (as required), and natural environment monitoring. Please refer to the FOX-C Ekalugad Fjord Long Term Monitoring Plan (2008) for additional information.

The last LTM event occurred in August 2016 (Year 8). INAC was not on site in 2017. The next LTM event (year 10) is scheduled for August 2018. Future events will occur in 2023, 2028, and 2033.

Progre	ssive Reclamation Work Undertaken
	Additional Details (i.e., work completed and future works proposed)
	No progessive reclamation work was undertaken in 2017.
	As per the FOX-C Ekalugad Fjord Long Term Monitoring Plan (2008), future LTM events are scheduled for 2018, 2023, 2028, and 2033 (years 10, 15, 20, and 25 respectively).
Result	s of the Monitoring Program including:
	The GPS Co-ordinates (in degrees, minutes and seconds of latitude and longitude) of
	each location where sources of water are utilized;
	Details attached ▼
	Additional Details:
	Additional details regarding water sources (monitoring wells) can be found in the FOX-C Ekalugad Fjord Long Term Monitoring Plan (2008).
	The GPS Co-ordinates (in degrees, minutes and seconds of latitude and longitude) of each location where wastes associated with the licence are deposited; Not Applicable (N/A)
	Additional Details:
	Remediation was completed in 2008 and the only structure remaining at the site is the NHWL. No waste was deposited on site in 2017. Any solid waste generated is removed from site at the completion of LTM activities.
	Results of any additional sampling and/or analysis that was requested by an Inspector
	No additional sampling requested by an Inspector or the Board
	No additional sampling requested by an Inspector or the Board Additional Details: (date of request, analysis of results, data attached, etc)
