21. SECURITY INFORMATION
Does the proposed amendment change the financial security assessment?
X Yes
Does the proposed amendment change the estimate of the total financial security for final reclamation?
X Yes
Provide an estimate of the total financial security for final reclamation equal to the total outstanding reclamation liability for land and water combined sufficient to cover the highest liability over the life of the undertaking. Estimates of reclamation costs must be based on the cost of having the necessary reclamation work done by a third party contractor if the operator defaults. The estimate must also include contingency factors appropriate to the particular work to be undertaken. Identify any changes in the financial security assessment resulting from the proposed amendment.
Where applicable, the financial security assessment should be prepared in a manner consistent with the principals respecting mine site reclamation and implementation found in the <i>Mine Site Reclamation Policy for Nunavut</i> , Indian and Northern Affairs Canada, 2002.
The site has already been reclaimed. The current project consists of the monitoring the results of the remediation and reclamation. There should be no further security required. The proponent is Defence Construction Canada, which is part of the Government of Canada.
