Sorry for the delay and ambiguity in my previous response.

Regarding:

1BR-LON0813 The QA and QC Plan for the Landfill Monitoring Program at the Fox-2 (Longstaff Bluff) DEW Line Site,

1BR-DYE0409 DYE-M QAQC Plan

1BR-JEN0712 QAQC Plan

1BR-FOD0813 QA/QC Plan for the Collection of Effluent Samples and the Landfill Monitoring Program

I cannot comment on the methods employed by other labs (Taiga Lab appears to not be involved with these endeavors). I see no glaring errors elsewhere in the reports.

If this still doesn't help, please let me know and I will try to be more specific.

As indicated previously I have no way of knowing what file or document you are referring to here. Please submit an official letter identifying our file number and/or project name.
Thank you.
