To: laura.dcosta@forces.gc.ca, alison.street@forces.gc.ca, Richard Dwyer <richard.dwyer@nwb-oen.ca>

Dear Ms. D' Costa and Ms. Street

Department of National Defence

--

I am the technical advisor assigned to this project.

The review of the application for renewal of water licence 1BR-FRA (Application) presents the following issue that needs to be addressed, before start the processing of the Application:

Box 1 of the Application, Licensee Contact Information, states that the Applicant is the of Department of National Defence associated to your names: Laura D'Costa and Alison Street.

Box 28 of the Application, Application Signature, is signed by Cynthia Tremblay.

Is Cynthia submitting the Application on behalf of National Denfce?.

In that case, a signed letter must be submitted that authorizes Cynthia to be the applicant's representative in the licensing process.

Otherwise a new application should be submitted with your signature.

I have copied below the statement from NWB Guide 4 "Completing and Submitting a Water Licence Application"

If the application is being filed by another party on behalf of the applicant or proposed licensee, the application must also include a letter outlining the relationship between the parties as well as confirmation in writing by the applicant that the other person or company is working on its behalf.

Regards

Sonia Aredes
