Subject: Defence Construction Canada – Request for Screening – New

The Nunavut Water Board received a letter dated May 3, 2001 from UMA Engineering Ltd. on behalf of Defence Construction Canada for water use and waste disposal associated with a small, temporary camp.

In accordance with Articles 12 and 13 of the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada*, this project shall be screened by the Nunavut Impact Review Board to determine whether it has significant impact potential, and whether it requires review, before the application can be processed by the Nunavut Water Board.

Due to the temporary nature of the camp, the one-page letter from UMA Engineering is serving as the entire application. I am sending this one-page application along with a copy of the contact information for both Defence Construction Canada and UMA Engineering.

Please let our office know when we can expect a screening decision so that we can set our deadline for public concerns accordingly.

Sincerely,
