Hi Don,

Thank you for following up on this item. I supplied the screening for informational purposes. The water license that you are referring to is a Class B and is exempt from NIRB screening under Section 12-1(2) of the NLCA. If you need more information, please feel free to contact our office.

Good Afternoon Tara,

I have had the opportunity to review your June 11 response to the email below. In the email, you provided a May 2009 Screening Decision (see attached). From what I can tell from the Screening Decision, the scope covered the Lady Franklin Point (PIN-3) Radar Reconstruction. Although applicable to a separate NWB application for reconstruction, the application in question for which the NWB needs confirmation of NIRB Screening/Exemption on is for the Long Term Landfill Monitoring Plan. Could you confirm whether the Landfill Monitoring is exempt or if it needs to be screened?

The application can be obtained from our ftp site, Username: public, Password: registry at the following link:  
<ftp://nunavutwaterboard.org/1%20PRUC/1%20INDUSTRIAL/1B/1BR%20-%20Remediation/1BR-FRA0209%20PIN%203%20DCC/1%20APPLICATION/2009%20Renewal/>

Thanks Tara, I am available by the below phone number or return emails if needed.

Don

Previous NIRB file: 01DN100 dated December 18, 2001

On November 17, 2009 the above file was forwarded to NIRB requesting a screening decision or notification in writing of an exemption. Our office, to date, has not received written correspondence relating to this file. Please advise.  
Regards,

Phyllis Beaulieu
