Subject: Annual Report Requirement NWB5FRA0308

Dear Mr. Warren:

The Nunavut Water Board (NWB) has reviewed the "2003 Annual Report for Water License No. NWB5FRA0308" submitted on your behalf by the UMA Engineering Ltd. to the Board on March 31, 2004 in accordance with Part B, Item 1 of your water licence. The NWB herein conditionally approves the 2003 Annual Report and thanks Defence Construction Canada for their submission.

It was noted following the review of the Annual Report submitted that additional information is required by the NWB, in relation to your 2003 operations. The 2003 Annual Report does not include an executive summary of the Annual Report in both English and Inuktitut, as required by Part B, Item 1 (xv). Additionally, in their comments submitted to the NWB, Environment Canada requested that the Licensee submit information regarding the current performance of, and the amount of sludge (if any) currently contained within, the sewage disposal lagoon. The Licensee is herein requested to submit this information to the NWB, as an addendum to the approved 2003 Annual Report.

Please contact the undersigned at (867) 360-6338 or e-mail Jim Wall (Technical Advisor, Municipal) at tech1@nwb.nunavut.ca if you have any questions.

Sincerely,

Original Signed By:

Philippe di Pizzo
Executive Director
