

## **Executive Summary**

Transport Canada would like to request a renewal and extension to the Nunavut Water Board (NWB) license 1BR-FTA1217 for the Cambridge Bay Airport – Firefighter Training and Apron Areas Remediation Project located at Cambridge Bay, Nunavut. Transport Canada is requesting a renewal of the license for a further 10 years from November 1, 2017 to October 31, 2027. The renewal does not represent a change in scope for the Project. All activities as currently defined will be consistent with the activities undertaken in previous years and consistent with current authorizations. Transport Canada is requesting only a change to the term of the licence. The project was previously screened by the Nunavut Impact Review Board (NIRB) and NIRB released its screening decision in July 2012 (File # 12XN023).
