Subject: Minutes of meeting - Request to the city of iqaluit for water and sanitation Services to the Project Workers CAmp Facility

Good morning Mélodie

As per our today meeting, please find below minutes for your review/ comments

Thanks

- Development Kitchen : The **Planning and Development Department** is willing to move forward with the development permit of the Temporary kitchen

We will need to go in front of the **Planning and Development committee and Council**. If approved, a 14 day appeal period is required prior to the issuance of the permit – Date to be confirmed once the next Planning and Development Committee is scheduled

- Development Permit for the Temporary Workers accommodation : the City has rejected the permit. But has confirmed that **the Planning and Development Department (unless instructed otherwise)** will not request SINTRA/BOUYGUES to dismantle it
- Water and sanitation Services for Temporary Workers accommodation- The city **will consider providing** sewage and sanitation services under certain conditions:
- A Service agreement must be signed between parties - The City will provide template and conditions

Site plan will be as well attached to the Service agreement

In addition, the City may need to amend its sewer by-law to allow the City to set a separate fee for this project.

- The city **would likely** come twice a week to the Temporary Workers accommodation **(this will be established once the servicing requirements and set-ups of the building are confirmed)**

SINTRA/BOUYGUES to confirm that enough tanks will be installed to allow this frequencies of services

- Prior installation, a visit will be done between parties in order

- To agree on the position of tank, and outlets
 - To review road access
-
- Services will be required end of may, beginning of June 2015
