Re: Chromium

- Barry stated that report on chromium would be submitted near the beginning of November.
- Also stated that amended licence application, on behalf of AIP, would be submitted to Board near the beginning of December
- Barry stated that AIP and Transport Canada were resolving differences over who is responsible for legacy remediation at AIP site. Will resolve issue by time application is submitted
- GN is hoping that licence can be processed by April 2015, before construction resumes at AIP site.
