**RE: Water Licence Application from UMA Engineering re cleanup of the Jenny Lind Island (CAM-01) DEW Line site**

The Nunavut Regional Office in Iqaluit, has reviewed the above noted water licence application for camp requirements during site cleanup.

In DIAND's opinion, a water licence is not required for this project, based on the provisions of the NWT Waters Act and Regulations. The camp is expected to have fewer than 50 staff at any given time, and the existing land use permit requirements already deal adequately with water use and waste disposal for an operation of this size and duration.

If there are any questions or comments regarding the above, please contact me at (867) 975-4548 or by fax at (867) 975-4560.

Sincerely,

Michelle Johnson  
Kitikmeot/Kivalliq Regional Coordinator
