**Re: Comments on Water License Renewal NWB5JEN0101 - UMA Engineering Ltd. -  
CAM-1 Jenney Lind Island Dew Line Site, NU.**

UMA Engineering Ltd. is seeking a water license renewal to conduct a site investigation to provide information to be used in the reclamation design. The crew will camp within the existing site and will consist of 15 - 20 people. The work will be from July, 2002 to be completed September, 2002.

Environment Canada has no concerns with a water license renewal for the above mentioned proposed work.
